Commercial Pilot: Airplane Single Engine Land
Instrument Airplane – Multi-Engine Land – First Class Medical

Flight Times

Total	290.7				
Pilot in Command	191.9	Multi-Engine	18.3	Night	48.3
Simulated Instrument	41.2	Cross Country	47.1	Actual Instrument	1.6

Education

01/23 – 05/25 **Bachelor of Science Degree in Aeronautics**, *Liberty University*, Lynchburg, VA

- Commercial/Corporate Concentration, GPA 4.0
- Dean's List 3 semesters, Anticipated Graduation Date: 05/25

08/17 – 06/21 **High School Diploma**, *Pen Argyl Area High School*, Pen Argyl, PA

- PIAA State Swimmer Medalist; District XI Swimming Champion in 2 events
- Shining Knight Award; John Philip Sousa Award; Honors Program 4 years

Employment

07/26 – Present **Baggage Handler/Ramp Agent**, *Lehigh Northampton Airport Authority*, Allentown, PA

- Marshal aircraft and assist all ground operations while maintaining ramp safety, situational awareness, and FAA/TSA compliance
- Operate ground equipment and communicate by radio while coordinating with team members to support safe, efficient aircraft operations

01/24 – 05/25 **Aeronautics Tutor**, *College of Applied Studies and Academic Success*, Lynchburg, VA

- Assisted students with complex ACS knowledge line-item concepts
- Thoroughly explained subjects beyond ACS for EOC and check ride preparation
- Utilized real-world examples and diverse teaching methods, including creating analogies, to clarify complex topics and resolve student confusion

10/23 – 05/25 **Convenience Store Worker**, *The Grid*, Lynchburg, VA

- Managed all operations throughout the store, ensuring customers had minimal wait time at register while keeping everything stocked and clean
- Handled additional tasks to ensure smooth food chain operations
- Maintain precise alignment of products for optimal store organization

Specialized Training

09/24 – 05/25 **National Intercollegiate Flying Association**, *Liberty University*, Lynchburg, VA

- Enhanced pilot skills and teamwork to ultimately create a safe environment
- Participated in ground trainer, IFR simulator, E6-B, and flight events
- Leveraged the competitive side in aviation to precisely and effectively aviate

07/23 – 07/23 **Upset Prevention Recovery Training**, *Prevailance Aerospace*, Lynchburg, VA

- Developed effective recovery techniques at any pitch, bank, altitude, or airspeed
- Acquired strong skills in stall awareness, spin entry, and spin management
- Strengthened Aeronautical Decision Making in high-pressure, time-sensitive scenarios, leading to quicker, more accurate responses in critical situations
